

Group training course on Vegetable Cultivation Technology for Small Scale Farmers 2011 completed

The group training course on Vegetable Cultivation Technology for Small Scale Farmers 2011 was conducted for 9 months from February to November 2011 at Tsukuba International Center, JICA (TBIC) and closing ceremony was held on November 11. Hasegawa and Sawada from AAI were the instructors of the training program.

Seven participants from six countries accomplished the training course. They are extension workers, researchers and teachers. They will transfer their gained knowledge and technologies through the training to small scale farmers after going back to their own countries. We, AAI will continue to keep close relationship with them to support their activities.

Cosme (El Salvador)

Luis (El Salvador)

Akuila (Fuji)

Sinh (Laos)

Swe (Myanmar)

Sandesh (Nepal)

Taha (Tonga)

The members of Group training course on Vegetable Cultivation Technology for Small Scale Farmers, 2011

Two staff from AAI conducted the course and we built a good relationship with participants. The participants this year had always been together like a family. Our training practices were with full of laugh and smile and they were very famous in TBIC. We believe their friendship does not terminate even after they go back to each country.
